

E-Governance in Emerging Economy: Development & Assessment

Gupta, Rajan et al

E-Governance is an important aspect in any Emerging Economy for transparent functioning of the Government. That's why there is a need to track its development and assess it both quantitatively and qualitatively. In the present book, assessment of E-Governance development is showcased. Case study of India as an emerging economy is used for the data collection and assessment validation. This book will be useful for government policy makers and stakeholders in India. It will also be helpful for foreign investors looking towards the development of particular region in India for investment through ease of governance. For researchers and academicians, this book will provide insights on various types of assessment frameworks and how a new framework can be developed and applied in any emerging economy like India. Other developing nations can also adopt and customize the framework presented in this book and apply in their respective countries to track E-Governance Development.
